FOR ORDERING BY SINGLE COPY,

Check Report Below:

() **Fruit & Vineyard**

A comprehensive accounting of fruit acreage, trees, and vines by county. Includes apple acreage by tree age, variety, and planting density. Data are published for grape acreage by variety and rootstock, by county. This survey is conducted about every five years and continues a data series established in 1957.

() **Equine Survey**

Detailed information on equine numbers by breed, use, location, and type of operation including acreage used for equine purposes and employment in the industry. Includes data on horse values, investment in capital items, and expenses associated with horse ownership. Publications are available for the year 2000, 1988, and 1978.

() **Computer Usage**

This report presents data on farm computer usage, including computer access, ownership or leasing, farm business use, and Internet access. Estimates are presented for the U.S., by State, economic class, and type of farm. This report is published every two years.

() **New York is an Agricultural State**

Annual summary in brochure format of some of the commodities in which New York ranks nationally.

2002 Census of Agriculture

() **Publication**

() **CD-Rom**

The 2002 Census of Agriculture is the most comprehensive source of statistics portraying our Nation's agriculture. It is the only source of uniform agricultural data for every county in the United States.
